

Payment Guideline

We aim to provide a safe and secure shopping experience. However, in some instances, we would be needing your payment details and CNIC to ensure that your credentials are not being misused and the details are used by the real owner.

Following is the procedure:

A picture of your CNIC (Front and back)

Picture of your Credit/Debit card with the following details only:

Card holder's name

First 6 digits of the card number

Last 4 digits of the card number

We at J. never compromise on the security of the personal details of customers.
